Re: A Proposal to Change the Battlefield - From the Persian Gulf to the Constitution

Dear Mr. Vice President:

I am an Iranian-born American citizen from Illinois.

I am enclosing a copy of my newly published book, "BB or Not BB", which I have also sent to President Trump and to my Senators, Senator Durbin and Senator Duckworth.

My argument is simple: After 40 years, we should change the battlefield from the Persian Gulf to the Constitution.

Continued military confrontation and "Maximum Pressure" have not resolved the fundamental constitutional problem that has governed Iran since 1979.

A political strategy focused on supporting the Iranian people's right to a Constituent Assembly and a new Parliamentary Constitution offers an alternative to another destructive war.

Given your perspective on foreign policy and avoiding endless wars, I thought this proposal might merit your consideration.

I would be grateful if your national-security staff would review the central argument of the book.

Respectfully,

Sohrab ChamanAra
Enclosure: Book "BB or Not BB"
